*If any class is designated as unimpaired, explain on an attached sheet why the class is unimpaired, or refer to the portion of the disclosure statement that provides such an explanation.

**When calculating percentages, count only the allowed amount of those claims voting.

**INSTRUCTIONS FOR PREPARATION OF THE ACCEPTANCE AND REJECTION SUMMARY
SUMMARY FORM #1181**

The Summary of Acceptances and Rejections Form (#1181) on the reverse side of this document should reflect all classes designated in the plan, whether or not ballots were received in each class. If there are no votes in an impaired class, you should be prepared to discuss cram down as to that class at the confirmation hearing.

The "% of Dollar Amt. Accepting" and "% of Number Accepting" columns on the form need be completed only if a class is impaired or if there are any rejecting ballots in an unimpaired class. The reason for the latter requirement is so the judge can determine the vote outcome if (s)he disagrees with your conclusion that the class is unimpaired. If the class is unimpaired and there are no rejecting ballots, please write "No rejecting ballots" under the last three columns of the form.

When compiling the amount figures, use the allowed amount of each creditor's claim rather than any amount shown on the ballot.

The original ballots must be separated and assembled by acceptances and rejections by class, and attached to the Summary.
